Professional Summary

Analytical B.Tech graduate from NIT Andhra Pradesh seeking an entry-level Data Analyst or Business Analyst role. Skilled in Excel, SQL, Power BI and Tableau, with knowledge of data cleaning, dashboard development, KPI reporting and data visualization. Familiar with Python programming and data analysis libraries. Experienced in academic research, technical documentation and team collaboration.

Education

National Institute of Technology Andhra Pradesh 2022–2026
B.Tech in Biotechnology
Narayana Junior College, Hyderabad 2020–2022
Class XII (MPC) 94%

Technical Skills

Data Analysis: Excel, Pivot Tables, Data Cleaning, Trend Analysis, KPI Reporting
BI Tools: Power BI, Tableau, Dashboard Development, Data Visualization
Power BI: Power Query, DAX, YTD Calculations, Data Modelling, Table Relationships
SQL (MySQL): SELECT, WHERE, ORDER BY, GROUP BY, HAVING, Aggregate Functions, Joins, Subqueries
Programming: Python, Pandas, NumPy
Core Skills: Analytical Thinking, Problem-Solving, Documentation, Communication, Teamwork

Projects

Tableau HR Analytics Dashboard

- Analysed employee data to explore job distribution, gender, age groups, salary patterns and leave balances.
- Created visualizations to compare salaries by job role and qualification and examine employee trends.
- Practised calculated fields, filters, running totals and interactive dashboard actions.

Power BI KPI Dashboard

- Transformed data using Power Query and created data models with relationships between multiple fact tables.
- Developed DAX calculations for Year-to-Date (YTD) metrics and key performance indicators.
- Designed interactive KPI visuals using cards, custom labels, sparklines and report themes.

Netflix Content Analysis Dashboard

- Cleaned and analysed Netflix data to identify trends in content types, release years and categories.
- Built an interactive Power BI dashboard with charts, filters and visual summaries to communicate findings.

Chocolate Shipment Analysis Dashboard

- Analysed shipment data using Excel to identify business performance trends and summarize key indicators.
- Presented findings through dashboard visualizations to support performance tracking and reporting.

Algal Productivity and Carbon Capture Modelling

- Developed a theoretical Python model using NASA POWER climate data to study algal productivity and carbon.
- Compared locations and examined environmental factors affecting model outputs.

Experience

Research Intern – Fermentation-Based Protein Production May 2024–Jul 2024
National Institute of Technology Andhra Pradesh

- Recorded and reviewed research observations related to protein yield and purity.
- Organised experimental findings and contributed to technical documentation.
- Collaborated with the research team on project activities and problem-solving.

Leadership and Achievements

- **Joint Secretary, Biotechnology Engineering Association, NIT Andhra Pradesh:** Developed coordination, teamwork and communication skills.
- **GATE Biotechnology 2025:** Secured an All India Rank (AIR) of 912 in the Graduate Aptitude Test in Engineering.
- **Smart India Hackathon 2024:** Participated through the Innovation and Entrepreneurship Cell, NIT AP.

Certifications

- **The Complete Python Bootcamp From Zero to Hero in Python** – Udemy, 22-hour course (Dec 2024).
